

VIDEO ENTRY STARTER KIT

ACHIEVE CLEAR COMMUNICATIONS IN MINUTES

The IC-EDGE™ Video Entry Starter Kit addresses the fundamental need for intelligible audio and video, all in one easy-to-install system. With an innovative speaker design and noise cancelling technology, the Video Entry Starter Kit is equipped to handle any dynamic noise environment.

EASY - Easily install an IC-EDGE system using a web browser with no external software and no costly (virtual) server infrastructure. System expands by simply adding a device!

INTEROPERABLE - Flexible interoperability through open API and industry standard protocols.

SECURE - Cyber defensibility is addressed using Integrated IEEE 802.1X network access control with regular software upgrades to ensure secure, reliable communications.

When it comes to understanding a situation, whether its critical or an everyday task, we depend on our ability to communicate with one another in order to determine the most effective response.

Thus, communication must not only be heard, but it must be understood in every situation.

That is the power of IC-EDGE™

A TRUE PLUG-AND-PLAY SOLUTION THAT TAKES JUST MINUTES TO SET UP WITH 4 KIT OPTIONS AVAILABLE

1

IP Touch Station with Video
ITSV-4, 1490004010

-and-

IP and SIP Video Intercom
TCIV-2+, 1008315020

TV42+KIT, IC-EDGE Video Entry Kit:
ITSV-4 / TCIV-2+ / TA-1
(Part #: 5552301420)

2

IP Touch Station with Video
ITSV-4, 1490004010

-and-

IP and SIP Video Intercom
TCIV-3+, 1008315030

TV43+KIT, IC-EDGE Video Entry Kit:
ITSV-4 / TCIV-3+ / TA-1
(Part #: 5552301430)

3

IP Touch Station with Video
ITSV-5, 1490005010

-and-

IP and SIP Video Intercom
TCIV-2+, 1008315020

TV52+KIT, IC-EDGE Video Entry Kit:
ITSV-5 / TCIV-2+ / TA-1
(Part #: 5552301520)

4

IP Touch Station with Video
ITSV-5, 1490005010

-and-

IP and SIP Video Intercom
TCIV-3+, 1008315030
