

Critical Communication
Solutions for
Safer Learning

**Safety and security is
the cornerstone** of today's
educational institutions.

SAFEGUARDING EVERYONE

FROM PERIMETER TO THE CLASSROOM

In today's educational institutions, a safe and welcoming environment is paramount. Zenitel's critical communication solutions offer reliable and durable communication, ensuring safety and security for students, staff and parents.

Zenitel helps you communicate when it matters most.

Safe Learning Environment

Integrating Zenitel's critical communication technologies into your security mix transforms it from reactive to proactive, so you can address threats before they arise, enabling students and staff to feel safe in their learning environment.

Security Through Technology

Empower your security team by adding interactivity to your security solutions, through talkback, audio monitoring, and ambient listening functions, to enhance fast response and clear communication in all types of educational environments and situations.

Simplify Daily Operations

From scheduled announcements to emergency alerts, you can use a single system to manage all your audio needs, simplifying everyday operations for your staff. Trust Zenitel's best-in-class audio solutions to keep everyone on campus informed and safe.

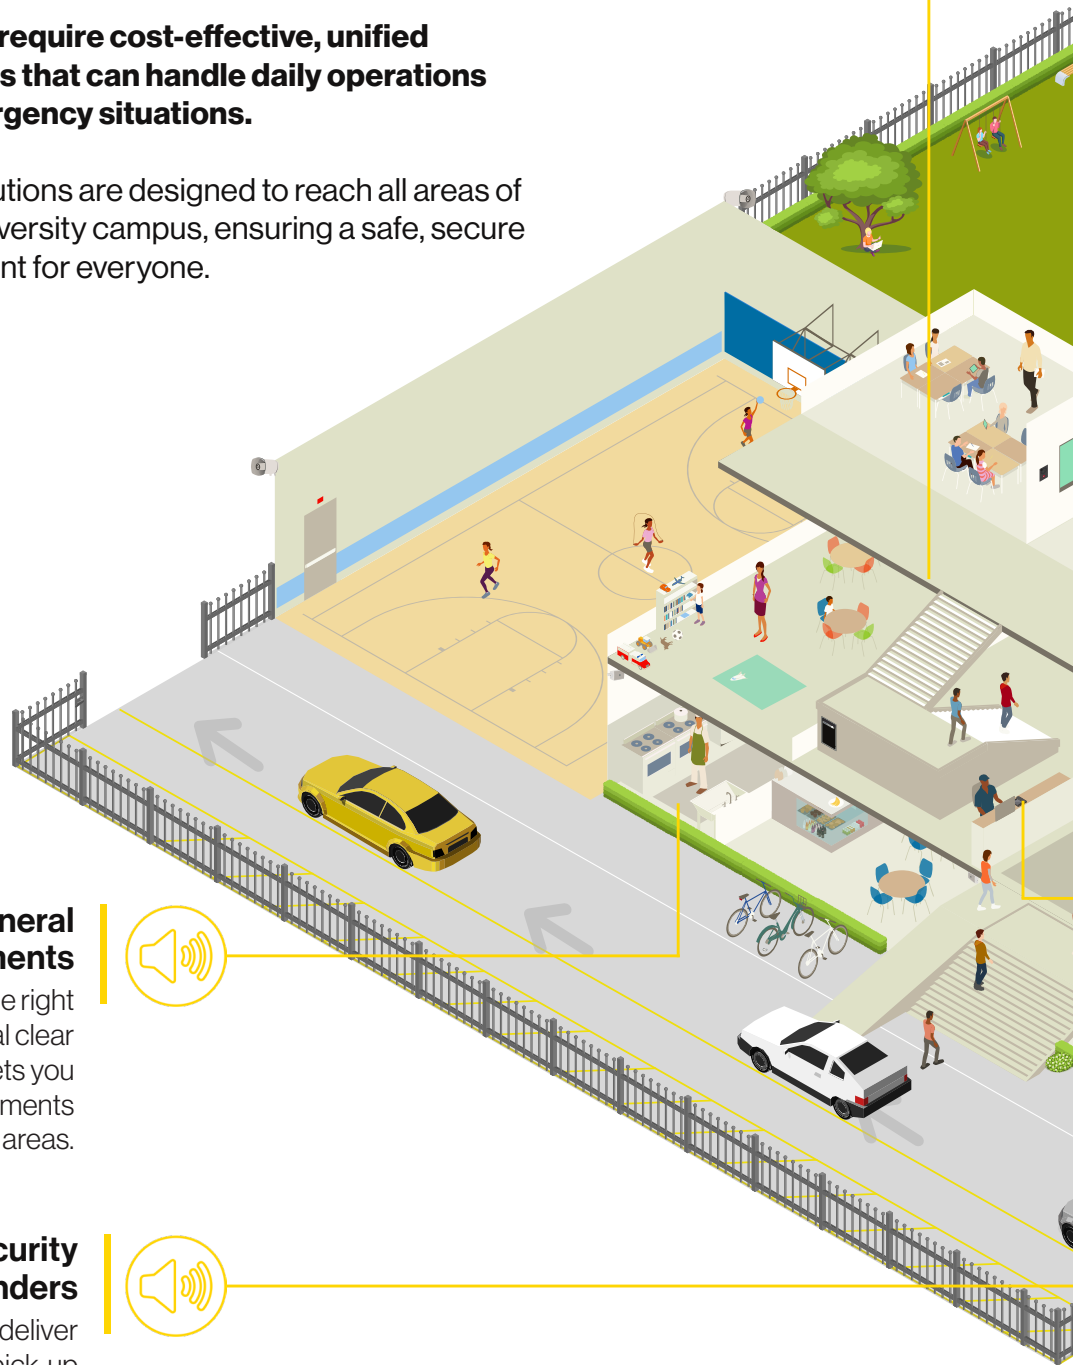

Smarter Investment

With intercoms, IP speakers, and Public address and voice alarm systems are unified into one solution, Zenitel assists with coordination during an emergency, enabling you to offer better protection for your students and staff.

Unified communication solutions for **educational settings, both inside and out.**

Educational institutions require cost-effective, unified communication solutions that can handle daily operations as well as deliver in emergency situations.

Zenitel's products and solutions are designed to reach all areas of your school, college or university campus, ensuring a safe, secure and welcoming environment for everyone.

Crystal Clear General Announcements

Get the right messages to the right people at the right time. Crystal clear audio with flexible zoning lets you broadcast general announcements to targeted areas.

Security Reminders

Powerful horn speakers deliver announcements in drop-off/pick-up zones and other open areas where intelligible audio is paramount.

Emergency Evacuation Messages

In the event of fire, lockdown or other emergency, public address and voice alarm systems deliver live or pre-recorded voice messages, ensuring safe evacuation of students and staff.

Non-pervasive surveillance

IP Speakers provide ambient listening and talk-back features to keep an ear on building perimeters so you can act in real time and with clear communication.

Multi-functional classroom communication

Deliver clear paging messages as well as two-way emergency communication to each classroom using a single device, providing information to teachers and students day-to-day and during emergency situations.

Efficient Visitor Management

Use a single operator desk microphone to manage your operational, security and safety communication needs. Streamline your visitor experience with dependable audio from Zenitel.

Interactive Access Control

Using Door Entry Intercoms, control access to school and restricted areas. Add a voice to your Video and Access Control System, so you can see and hear who is at the gate or door.

Help Points for Emergency and Paging Messages

A single intercom station is powerful enough to operate both as a paging speaker and as an intercom station. Provide information to teachers and students for daily operations as well as for emergency situations.

Our classroom intercoms offer unparalleled HD voice quality, even with Open Duplex. Features such as Active Noise Cancellation, a MEMS microphone, a 10W Class D amplifier, and our unique loudspeaker grill design deliver exceptional audio quality.

IP Speakers for Interactive and Immediate Response

Empower your educational facility staff by adding interactivity through Talkback and Ambient Listening functions.

The inclusion of ONVIF enable SIP operation mode enables you to integrate our IP speakers into third-party video management systems, so you can act on what you see and hear.

Get the right message to the right people with IP speakers

Manage crowded areas, such as the cafeteria, with cost-effective targeted messages using IP Speakers. Utilize the flexible and micro zoning possibilities with IP speakers to eliminate the need for costly conventional PA systems.

Our unique, customizable Automatic Volume Control (AVC) and Ambient Noise Sensor (ANS) technologies empower you to dynamically adjust the output volume levels of PA announcements.

IP Audio & Video Communication
Solutions to **keep students, staff
and visitors safe at all times.**

Certified PAVA solutions for operational and life safety situations

Delivering a truly maintenance-free solution, Zenitel's EN54-certified Public Address and Voice Alarm systems are ideal for managing overcrowding and other emergency situations on staircases, hallways and other high-traffic areas.

Products such as the low-profile Integra can be wall-mounted anywhere, offering operational public address, security, life safety, and paging announcements to help keep everyone informed.

Communication for better safety & security

With out-of-the box integration to other security systems, manage and control all your security assets, including audio from a single point.

Manage all your communication needs from a single terminal and dispatch live warning and prerecorded messages, as well as two-way communication centrally, ensuring that your schools and universities are safe and secure.

Door Entry Intercom for Controlling Movement

Positive visual and auditory identification of visitors through HD video and audio door entry intercoms.

With the possibility to add card readers from leading manufacturers such as HID and Elatec, you have the freedom to meet your needs exactly how you want, ensuring that your schools and universities are safe and secure.

Peace of mind with **proven and trusted communication solutions**

With over 150 years of combined audio experience and thousands of successful deployments of communication solutions for educational institutions, Zenitel has a proven track record of delivering on customer expectations and helping them with ensuring the safety, security and well-being of staff, visitors and facilities.
