

# HB-90

## TELEPHONE TONE CALLER

when communication is **critical**

### FEATURES

- Telephone line powered (no mains voltage or batteries required)
- Can be wall or desk mounted
- Indoor use
- Maintenance-free operation
- 90 dBA output

### DESCRIPTION

The HB-90 extension tone caller is ideal for use as an additional ringer unit. The ringer supports four different tones, making it easy to identify the ringing telephone in busy working environments. HB-90 is neat, compact and unobtrusive and can be wall or desk mounted.
