

SALES BULLETIN

ICX™ Platform

To: All Zenitel Offices & Partners

20/06/19

ICX™ Platform

Zenitel is pleased to announce the introduction of the ICX™ Platform. ICX™ Platform is Zenitel's Intelligent Communication Platform that provides IC management and security services, and allows for seamless integration into cloud and other appliances.

The ICX™ Platform consists of two main parts:

- ICX-500 Intelligent Gateway
- ICX-Core

ICX-500 Intelligent Gateway

An integrated Intelligent Communication Gateway connecting people, devices & systems at unprecedented levels of manageability, scalability, robustness and interoperability.

ICX-Core

An Intelligent Communication Software platform that integrates seamlessly into other security and safety applications and delivers state of the art IC management and security services. Runs on ICX-500 Gateway or other certified platforms.

INTRODUCTION OFFER

ICX™ Platform provides all AlphaCom XE1 functions and has, in addition, higher performance and new capabilities.

During the introduction period, the ICX product range will be offered at a similar price level as AlphaCom XE1. The introduction period starts with immediate effect and runs until 30th September 2019.

Not for Resale Offer

To be able to familiarize yourself with the ICX™ Platform, Zenitel offers ICX-500 units and the ICX-Core software at an additional discount of 50%; a total of 2 products can be bought as part of this offer. When you take up this offer, you will, in addition, receive a Product Key for each ICX product bought under this offer; the Product Key will contain a set of free licenses. This will also allow you to get experience on our new Asset Management System by activating the licenses on-line.

ICX SALES ITEMS

The following items will be available in the ICX pricelist:

Hardware

Order no.	Short Code	Description
