

Statement for Accessories to 914T (H/U914T-xxxB)

We confirm that the following statements are true:

Unless there are legal and/or regulatory provisions to the contrary, the products listed below can be used as accessories with 914T under the condition that the customer's contractual and statutory obligations are met.

Always observe the guidelines given in the Quick Reference Guide and all necessary safety precautions when using the handset.

Follow the operating instructions and adhere to all warnings and safety precautions located on the product, and in the User Manual.

The following accessories are available for ATEX approved devices, but are not included in any ATEX approval:

- 543218 Safety String, 35 cm
- 543219 Safety string, 80 cm
- 660174 Extension for belt clip
- 660201 Security Chain 80cm for d41, d62, i62, d81 and Myco
- 660245 Belt clip 914, Swivel type
- 660446 Leather Case for 914T
- F490308 Alkaline Battery 912/914 GP24A (ATEX)

These accessories are not in the scope of Directive 94/9/EC and cannot be Ex or CE marked according to Directive 94/9/EC.

These accessories are made from materials with very low electrical conductivity.

Their only sources of electrostatic charging comes from the process of use since the items are not considered to have their own source of ignition.

The accessories can become charged, e.g. if they are rubbed, or if dust or a liquid flows over the surface.

However, in most cases this may be controlled by the user, and if they are used in hazardous areas it shall be assessed and controlled according to the requirements of relevant national or community legislation. In any case the user of these accessories have to consider these ignition sources when undertaking a risk assessment in the workplace.

The following accessories are considered safe to use together with ATEX approved pagers outside restricted area:

- 541206 T967MP Rack Master Passive
- 541207 T967EP Rack Extension Passive
- 541209 T967M Rack Master Active
