

NOTE!
Use 2x2x0,75 shielded twisted pair cable or similar that meets or exceeds the basic requirements for EIA RS-485 applications (communication cable)!

NOTE!
RG-59/U is 75ohm video coax cable used for CCTV applications. Max distance is 228m, for more distance use CCTV balun. RG-59/U cable must have solid core and bare-copper conductor. Resistance of the cable is 10-16ohms per 1000feet (304m).

NOTE!
Cables and JBs are customer supply
