AlphaView licence avancée

AlphaView est un progiciel de gestion PC pour le serveur audio AlphaCom.

En savoir plus sur ce produit.

Control Room Solutions

Description

AlphaView est un progiciel de gestion PC pour serveur audio AlphaCom qui donne accès à toutes les capacités de communication interphone dans l'AlphaCom. Ce progiciel est normalement destiné à une utilisation dans des environnements type salle de contrôle.

AlphaView est flexible et simple à configurer. Ses fonctionnalités par défaut garantissent un fonctionnement quelques minutes seulement après l'installation, tandis que ses fonctions de configuration permettent une personnalisation totale.

AlphaView comprend 2 progiciels : AlphaView Serveur et AlphaView Client.

La licence AlphaView dépend du nombre de clients à connecter sur le serveur. La licence avancée garantit une interface utilisateur complète et personnalisable, tandis que la licence de base impose des restrictions sur la personnalisation de l'interface utilisateur et autorise l'information à être diffusée sur un seul des moniteurs connectés au client PC AlphaView.
