DVR-3000-04A100

Digital Video Recorder Bosch 4 channels

Description

The DVR-3000 is a family of 4/8/16 channel digital recorders that use the latest 960H highresolution video technology and state-of-the-art compression techniques. These advanced technologies, coupled with efficient network data transmission, deliver the high security and reliability required for modern surveillance systems. Simultaneous remote or local monitoring, recording, archive and playback are guided by simple menu selections and operator commands. The recorders are available with a number of storage capacities, and a built-in DVD burner can be specified.

- ✓ Mobile device support (iOS, Android)
- ✓ 960H RT high-resolution on HDMI output
- ✓ Remote alarm notification
- ✓ Network function for remote viewing, playback and control
- ✓ Simultaneous monitoring, recording and playback
- ✓ 4 channels
