DM2600

Digital Mobile Radio

Description

The power of digital communications is now within reach. MOTOTRBO DM2600 mobile radios are compact and capable so workers can stay connected, whether they are picking up cargo or transporting passengers. As part of the MOTOTRBO family of radios, the DM2600 delivers the best in digital radio technology, with features like integrated voice systems capability, twice the calling capacity, and clearer voice communications. With its Intelligent Audio feature, drivers don't need to adjust their radio volume to avoid missing a call, as the radio monitors background noise and automatically adjusts itself.

For those operating on analogue, the DM2600 lets you migrate to digital at your own pace and budget, with simple scalability to add functions and features. This radio is also compatible with advanced MOTOTRBO business-essential features, such as Transmit Interrupt to prioritize critical communication.

For affordable digital voice systems capability, the MOTOTRBO DM2600 gets the job done with clarity and ease.
