HB-90

Indoors telephone Tone Caller

Description

- ✓ Telephone line powered (no mains voltage or batteries required)
- ✓ Can be wall or desk mounted
- ✓ Maintenance-free operation

The HB-90 extension tone caller is ideal for use as an additional ringer unit. The ringer supports four different tones, making it easy to identify the ringing telephone in busy working environments. This line powered 90 dBA extension tonecaller is designed for internal use in domestic or business premises. HB-90 is neat, compact and unobtrusive and can be wall or desk mounted.
