Control Server 2000 v2

Control Server 2000 v2 w/ Win10

Description

The Control Server 2000 is used for controlling IPTV systems with various Encoding/Decoding options. It controls set-top boxes in IPTV installations, enabling easy integration with other 3rd-party systems. The Control Server 2000 is based on Intel i7 quad core with 16GB DDR4 memory, 240GB SATA3 SSD and Win10 Pro OS for installation in standard 19” racks. Features such as quick/easy installation, lockable front door, washable dust-filter and 1.2 mm thick material make the device an optimal solution for rack installations.
