ILF-HBA

ILF-HBA License

Description

The High Bandwidth Audio License allows you to use PCM_L16/48 codec for music distribution in an ICX-Alphacom system. The PCM_L16/48 codec use 48 kHz sampling and 16 bits per sample giving a maximum audio frequency of 24 kHz and SNR (signal to noise ratio) of 96 dB.

The following devices support PCM_L16/48:
- ✓ Exigo IP Speakers
- ✓ Exigo Amplifiers
- ✓ TKIE/TKIS kit used as PA gateways
- ✓ TKIE/TKIS kits used as microzone PA amplifiers

Note that Turbine stations currently do not support PCM_L16/48.

One High Bandwidth Audio License per ICX-AlphaCom is needed.

Used With

ICX-AlphaCom Core

ICX-500

Intelligent Communication
Gateway with HD Voice
