### Description

Communication devices for use in hazardous areas in the industry have to be especially well adapted to the extreme operating conditions they will beexposed to.

ResistTel Ex-telephone has been developed for operation in the petro-chemical industry, off-shore plants, and mills and harbours, meaning it is resistant too extreme temperatures, air humidity, sea water, dust and strong mechanical wear and tear.

It is certified for use in hazardous dust and gas atmospheres.

This Ex-telephone is completely programmable, and has been equipped with a 21-piece stainless (V4A) steel keypad designed for use with gloves.Letters and figures are presented clearly on the alphanumerical display.The ExResistTel also boasts all the convenient features that have become standard in the field of office communication. A string of optional extras and components especially certified for hazardous areas - makes ResistTel Ex-telephone even more functional.
