- ✓ Suitable for installation in wheelhouse or control room
🌧 IP44

Description

VSP-211-L Main Station: Batteryless Telephone System

The VSP-211-L main station is part of our 12-way Batteryless telephone system. The 12-Way system consists of up to 12 main stations with selector switch for selective calling between all connected stations.

- ✓ Flush-Mounting or optionally on wall or desk by means of an additional back-box for convenience
- ✓ 12-Position Selector Switch: Facilitates selective calling among all connected stations, ensuring targeted communication.
- ✓ Built-In System Amplifier: Powered by a capacitor battery, it guarantees continuous operation, vital during power outages.

Ideal for strategic installation onboard, the VSP-211-L ensures robust, uninterrupted communication, fulfilling SOLAS requirements for secondary communication systems.
