Emergency Communication Wall Unit

1602 Deluxe Wall Unit Slim

This product is only available in the Americas

Emergency points

Description

- Attention-getting LED Blue Light is included and mounted inside a polycarbonate housing. The LED Blue Light is continuously lit and flashes for duration of a call when “EMERGENCY” button is pressed to draw attention to a unit.
- Emergency Phone faceplate is illuminated at all times by an LED Panel Light
- Vandal-resistant marine grade 316 stainless steel construction
- Designed to resist extreme weather conditions
- A variety of signage, graphics, and color choices are available
- ADA-compliant

The emergency/security wall unit is a high visibility, vandal resistant, stainless steel unit designed for use with the Zenitel Emergency/Security Stations. The Emergency/Security Wall Unit can be painted in blue, red and yellow as required.

The wall unit is ideal for use in parking facilities, college campuses, medical centers and multi-building complexes. The wall unit has an integrated blue light encased in Lexan. The blue light is always lit, calling attention to the location of the emergency communication unit. When the intercom station is activated, the light flashes at 78 fpm. The light flashes until either actively terminated by the personnel receiving the call or automatically upon termination of the call itself.

The wall mount is equipped with a concealed LED panel light that continuously illuminates the face of the emergency phone. The wall mount is
