C1000-48T-4G-L

Cisco C1000 48port 1G switch with 4x1G SFP

CISCO Certified

Description

Cisco Catalyst 1000 Series Switches are fixed managed Gigabit Ethernet and Fast Ethernet enterprise-class Layer 2 switches designed for small businesses and branch offices. These are simple, flexible and secure switches ideal for out-of-the-wiring-closet and critical Internet of Things (IoT) deployments. Cisco Catalyst 1000 operate on Cisco IOS Software and support simple device management and network management via a Command-Line Interface (CLI) as well as an on-box web UI. These switches deliver enhanced network security, network reliability, and operational efficiency for small organizations.
