Description

## VSP-22M Watertight Main Station: Outdoor Batteryless Telephone Unit

The VSP-22M Watertight Main Station enhances outdoor communication on vessels with its sturdy construction and reliable performance. As part of our 20-Way Batteryless Telephone System, it's designed to withstand the elements while providing clear communication links, crucial in emergency situations. It features:

- ✓ Watertight Housing: Built to perform in outdoor settings, including bridge wings and open deck areas.

- ✓ Selective Calling: Enhanced with a 10-position selector switch and a 2-position group selector for efficient communication between stations

- ✓ Strategic Installation: Optimizes communication in critical outdoor locations, ensuring reliability during power outages.

The VSP-22M is specifically engineered for outdoor use on vessels, offering a weather-resistant solution that supports SOLAS-compliant safety communication protocols.
