- ✓ BREAKOUT OF CONNECTION FROM FOUR RJ45 PORTS

 Public Address  Voice Alarm Commercial Audio  Civil Defence Approval  EN 54 Certified

Description

The BOA02 is a simple Quad DIN Rail mount RJ45 cable break out adaptor

It has many uses in providing connections from non-RJ45 installation wiring to ASL VIPEDIA Audio routers, and to similar equipment with RJ45 connections.

The BOA02 has four RJ45 I/O ports and four blocks of eight terminals, plus four screen terminals. The four pairs of signals from each RJ45 port are each taken to a pair of terminals on one of the terminal blocks, and each terminal block has an associated screen connection. The primary applications are:

- ✓ Break out all of the connections from one RJ45 port, to eight screw terminals.
- ✓ Break out of the two Audio Input connections from each of four VIPEDIA-12 Audio Input
