Description

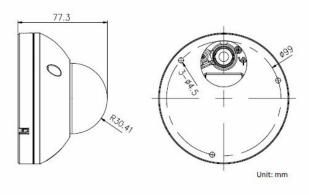

The OC-NDC 4MP has a SUS 316L stainless steel enclosure, protecting cameras to be used in corrosive environments, providing reliability and longevity compared to standard cameras. It is IP67 water resistant, preventing water ingress for outdoor use. The camera supports H.265+/H.265/H.264+/H.264 encoding: efficient compression technology that saves storage space and reduces bandwidth requirements. The Lens angle adjustment allows the camera lens to be adjusted to manually focus in different directions (pan/tilt/rotate), for easy installation.
