TFIE-1B Navy Intercom

IP and SIP Intercom Black Housing

- ✓ CCoIP/VoIP intercom for industrial environments
- ✓ Dual Ethernet connectivity for redundant networks
- ✓ ONVIF Compatible
- ✓ PoE powered
- ✓ Auxiliary DC power for redundancy
- ✓ DIP functionality for use with AlphaCom audio servers
- ✓ SIP/VoIP functionality for use with 3rd-party systems
- ✓ Dual relay outputs
- ✓ 6 configurable I/Os
- ✓ Dust- and water-protected to IP 66
- ✓ Monitoring and self-diagnostics of critical functionality
- ✓ Visible status indicators on front panel

Description

TFIE-1B Navy Industrial Intercom Station

The TFIE-1B Navy Intercom is a rugged IP intercom station designed for use in demanding environments where reliable communication is critical. Built on the proven TFIE-1 platform, this version comes with a black housing as part of our Navy product range, ensuring it blends seamlessly on naval vessels where the standard yellow finish is less suitable. While designed with naval applications in mind, the TFIE-1B is equally suited for use on other vessel types requiring a durable, high-performance intercom solution.

Features

The station features a full keypad with one programmable button, plus dedicated keys for Push-to-Talk (PTT) and Cancel. Its durable plastic housing withstands chemical and environmental exposure both onshore and offshore.

Delivering crystal-clear audio, the TFIE-1B includes a 10 W internal amplifier and 78 mm loudspeaker, producing up to 100 dB SPL. Active Noise Reduction and Acoustic Echo Cancelling enable hands-free, two-way communication with superior clarity, even in noisy environments. Status indicators provide clear system feedback, and the unit is fully compatible with AlphaCom and Exigo systems, as well as SIP for integration with third-party solutions.

Specifications

AUDIO

Noise cancelling - suppression of musical noise	YES
Noise cancelling - suppression of static noise	YES
Noise cancelling - suppression of rapidly changing noise	YES
Codecs	G.711, G.722, G.729
Frequency range, G.722 Codec	200 Hz – 7000 Hz
Audio technology	Modes: Full open duplex, switched open duplex
	Adaptive jitter filter
	Local tone generator
	Audio mixing - 3 channels
	Sound level detection (scream alarm)
	Automatic gain control (microphone)
	Automatic volume adjustment
Internal speaker amplifier	10 W class D
Automatic Volume Control (AVC)	Undistorted and clear audio
Acoustic Echo Cancellation (AEC)	Prevents audio feedback even at high volumes (95dB)
10W Speaker	Matches 10W amp for distortion-free broadcast level sound
