CRM-VH

Headset Solution

DESCRIPTION

- Headset solution for IP Flush Master
- Includes ON/OFF switch
- Flush mounting
- Light, comfortable, single-sided mono headset
- Noise cancelling microphone

The CRM-VH is a compact, robust headset solution for the IP Flush Master (CRM-V: 1008431000, 1008031000) in a control room communication system. The extremely comfortable single-sided headset enables you to hold a conversation without losing track of what is going on around you, so it is an ideal solution for e.g. hospitals and Engine Control Rooms.

The system comes with an ON/OFF switch, so it is possible to combine it with the handset (1008097100) for the IP Flush Master, and use it in loudspeaker mode.

The solution contains a Headset Connection Box for IP Flush Master, headset, and 50 cm patch cable.
