Release of Zenitel Indoor Touch Screen Intercom Station

To: All Zenitel Offices & Partners

April 2026

Introducing the Zenitel ITS-1 Indoor Touch Screen Intercom Station

Zenitel is pleased to introduce the **ITS-1**, a new indoor touch screen intercom station designed for building environments that require clear communication, intuitive call handling, and reliable support for access control.

By combining **video intercom, SIP calling, and paging** in a single device, the ITS-1 provides a user-friendly interface for everyday communication and entrance monitoring. With strong audio performance, flexible connectivity, and integration with IP-based infrastructure including **Zenitel Connect Pro**, the ITS-1 is well suited for modern residential and professional building environments.

Featured Highlights

The ITS-1 combines core intercom, audio, video, and connectivity features in a single modern indoor station:

- Supports **6 lines** and up to **6 SIP accounts**
- **7"** 1024 x 600 capacitive **10-point touch screen**
- **Full duplex 2-way HD audio** with advanced echo cancellation
- Dual speakers with wideband audio and integrated microphone
- Supports H.264 BP/MP/HP and **M-JPEG** streaming, with video up to **720p at 30 fps**
- **1 x 10/100M** network port with integrated **PoE**
- Integrated **dual-band Wi-Fi 6** and **Bluetooth 5.0**
- **Secure Boot & Data, TLS, and SRTP** encryption for secure communication and account protection
